VALUE-ADDED COURSE

FOR

INTERNS

Value-added courses for Interns provide a wide range of opportunities to enhance their clinical skills, knowledge, and patient management beyond the core curriculum. Value added course for interns is 30-hour structured program during their internship posting. It includes series of lectures and clinical demonstration as well as hands on training on patients. At the end of Value-added course completion interns will receive certificate of attendance for each course. These courses cover following subject.

TOPICS	Start YEAR
Tobacco Dependency Intervention	2024
Contemporary Esthetic Dentistry	2024
Minor oral surgery	2024
3 D innovations in Prosthodontics	2024
Periodontal Therapeutics	2024
Contemporary Pediatric Dentistry Skill Enhancement	2024

Value added course helps students to

- **Upgrade their clinical skills:** Gain expertise in specialized areas of dentistry and improve their ability to provide comprehensive patient care.
- **Knowledge enhancement:** Student get to learn emerging trends in dentistry and interdisciplinary dentistry that can improve their competency levels and overall patient management
- **Practical expertise** -Interns can significantly improve upon academic and professional fronts setting the stage for a successful and fulfilling career in dentistry.
